

# Revolutionizing Single-Cell and Multiomics – Intuitive Workflows, High Quality Data

**When:** Wednesday, September 10, 12:00PM - 1:00PM EST

**Where:** University of Florida Health | Cancer Center

**Address:** 2033 Mowry Rd, Gainesville, FL, 32610

**Meeting Room: CGRC 451**

Join our lunch and learn to understand how the unique Illumina Single Cell approach combined with Illumina's leading sequencing and informatics solutions will provide a complete solution and single point of support so that researchers can advance discovery faster and more economically. We will also be discussing the latest Illumina innovations from Library Prep, Sequencing, and Analysis and learn how we are enabling transformative applications using multiomics.

## Speakers

Ryan Gentry, MS  
Sales Specialist, Sequencing  
Illumina

Register now, space is limited

To register, **please scan the QR code**

**Or Visit:** <https://eventregistration.illumina.com/RevolutionizingSingleCell>

Lunch will be provided\*

There is no charge to attend this event,  
however registration is required.

\*As a friendly reminder, HCPs from Vermont and HCPs who are government employees may not partake in the meals and beverage. Thank you for helping us comply with the Sunshine Act and other transparency laws.
