

After your account has been created and you have entered payment information, follow these screenshots to request the service.

- Log into your iLab account <https://ufl.ilab.agilent.com/>, or visit <https://biotech.ufl.edu/> and select “Log into iLab” along the top banner.
- Select “menu icon” upper left
- Select “Core Facilities” on the left panel
- Select “Electron Microscopy”
- Select “Request Services” tab
- Select “New Projects and Request(4)” to expand the options
- The first selection is "New Services and Consultation Request" to the right select “initiate request”
- A form will load, provide the information and “save the completed form”
- At the bottom of the page, select “payment information”
- Lower right bottom corner, “submit to core”

Agilent CrossLab | iLab Operations Software

In advance of the Christmas Holidays, Agilent Cross Lab/ iLab Operations Software will be closed during U.S. hours on Monday December 24th and Tuesday December 25th, 2018. We will resume regular U.S. support hours on Wednesday December 26th, 2018. For urgent matters, please add "Urgent" to the ticket/ email subject or press "1", when prompted, to escalate a call on the iLab Support phone and we will prioritize those requests first.

### ICBR Electron Microscopy Core (UF) Lab

Note from Institution:  
University of Florida and ICBR core labs will be officially closed during the UF holiday: Tuesday, December 25, through Tuesday, January 1. No samples or other packages can be accepted during this holiday closure time. Please coordinate with individual core laboratories for delivery of samples or other packages either before or after the UF winter break.

Due to the winter break, ICBR's upcoming billing schedule will be altered as follows:  
12/17/2018 - Last invoices generated in 2018.  
12/18/2018 @ 12 noon - Deadline to submit disputes for 2018 payment.  
01/02/2019 - First Invoices dated 2019.

If you have expiring funds, please work with your core laboratory contact to make sure your project is completed and billed before the 12/17 invoices are posted.

Note from Organization:

New projects and new customers- Please select "Consultation" then request service button.

#### ▼ New Projects and Requests (4)

##### New Service and Consultation Request (New Projects and Requests)

This is a good place to start if you're not sure which services you need. Select this service if you have not previously used the ICBR EM Core, you want to initiate a project, request services or have questions about how EM can assist your research. A valid payment method must be selected but there is No fee for initial 1hr consultation.

Initiate request

##### Technical Staff Request. (New Projects and Requests)

Select this service if you want the EM Core Staff to operate an instrument.

Initiate request

##### Instrumentation Training (New Projects and Requests)

Hands-on training by technical staff on electron microscopes and ancillary equipment. After customer proves proficiency on instrumentation, calendar access will be granted. Additional charges apply. Hourly Technical Staff rate, instrumentation and consumables rates apply. The Core will build a quote based on your selection and information provided within the request.

Initiate request

##### Training: Tissue process and/or ultramicrotomy (per hour fee plus consumables) (New Projects and Requests)

Hourly Technical Staff rate, instrumentation and consumables rates apply. The Core will build a quote based on your selection and information provided within the request.

Initiate request

Hands-on training with EM staff, access to ancillary equipment (microwave, knife-maker, ultramicrotome, excludes electron microscopes). A total of four samples maybe processed during the training. Training duration will vary depending on type of training requested, sample type and objective of project. After training, researcher will have access to laboratory and ancillary instrumentation calendars during normal business hours. Choose this service if you want to process and/or section your own samples. This option is intended for projects that will extend over several weeks to months or multiple samples will be processed. A cost-effective option for researchers performing their own work.
